Staying Safe in the Primary Classroom

Ensure that all your students are risk aware and safe in the ever-changing online environment

Course reference: 1172ZTD   **Price:** £269+VAT   **Timings:** 10am - 4pm

The popularity of online and mobile technologies can be used positively in education, but staff and students need to be protected. Parents, carers and school staff have a responsibility to take an active interest and to ensure that safeguarding strategies are in place and implemented. This course will examine the potential safeguarding issues related to online and mobile technologies and explore possible solutions and means of implementing these in the primary classroom.

Course content

- Develop more robust classroom structures to support online safeguarding, including e-safety and acceptable use policy
- Understand the range of e-safety issues - from sexting to accessing inappropriate material
- Help pupils to recognise when they may be vulnerable online, and communicate key safety messages
- Increase awareness of the wider network for information, advise and for reporting abuse
- Provide more support and guidance for parents and carers

Using Blogging and Social Media as Tools for Learning

A guide to using blogging and social media to engage students and provide a range of assessment opportunities

Course reference: 8229ZTD   **Price:** £299+VAT   **Timings:** 10am - 4pm

Blogging and social media offer many exciting opportunities for teachers looking to get students really engaged using technologies they use everyday. But often teachers can be worried about using these powerful technologies because of the potential for abuse by students. This course will show you how to address those key concerns and make social media a vital part of your teaching toolkit.

Course content

- Understand the benefits of social media and how to apply their use in a school environment
- Add a variety of media to blogs such as audio, video, interactivity, text and images
- Use social media and blogs to communicate with parents, students and staff
- Work with blogs and social media through project work providing opportunities to peer assess each others' work
- Set policies for managing the appropriate usage of blogs and social media pages within your school
