# Challenging and Motivating More Able Pupils in the Primary Classroom

*How to maximise the potential of the gifted and talented pupils in your school*

**Course reference:** 1089ZUH   **Price:** £269+VAT   **Timings:** 10am - 4pm

More able children can easily become bored or distracted if a suitable curriculum and lesson opportunities is not provided to fulfil their needs. The focus of this course is on practical solutions to this very real problem enabling teachers to develop the full potential of their pupils. Methods of identifying, monitoring and extending work to challenge and satisfy more able children will be covered. Activities, practical examples and small group discussion will explore the strategies and approaches that teachers can employ when planning for opportunities to stretch the most able.

## Course content

- Appraise a range of strategies to identify your gifted and talented learners and monitor their progress
- Adapt planning to meet the needs of the most able
- Examine strategies and differentiation to extend pupils with different learning styles and gifts
- Consider how activities and resources encourage creativity, exploration and development of ideas
- Review best practice and policy for the more able

# Developing the Role of the Gifted and Talented Co-ordinator

*How to put programmes in place to stretch and challenge gifted children across the school*

**Course reference:** 7828ZUH   **Price:** £299+VAT   **Timings:** 10am - 4pm

This course addresses the issues most commonly faced by G&T co-ordinators and explores practical strategies for developing the role. Those new to or aspiring to the role of the G&T co-ordination will benefit from this course, as well as those with more experience looking for a refresher or new ideas. This course is ideal for those staff from primary and secondary schools, as well as FE colleges.

## Course content

- The role of the G&T co-ordinator
- Developing and implementing a G&T policy that works
- Educating staff to recognise gifted students and enabling the development of appropriate provision
- Building a pool of exciting activities and resources for gifted learners
- Providing extended learning activities beyond the classroom
- Pastoral care for gifted and talented students

## Stretching More Able Students

*Highly effective strategies to improve the achievement and progress of more able students in high ability and mixed ability groups*

**Price:** £299+VAT **Timings:** 10am - 4pm

This course is essential for both new and experienced teachers who are looking to support their most able students in attaining outstanding learning and progress in both mixed ability and high ability groups. Heads of department and other middle leaders will also benefit, as will teaching assistants assigned to support the learning of your most able students.

### Course content

- Plan effective, differentiated lessons that challenge your most able learners
- Devise extension activities that combine both breadth and depth
- Develop personal learning and thinking skills
- Support able learners through classroom talk and questioning
- Set high expectations and monitor progress through effective assessment
- Tackle the underachievement of more able students
- Enrich learning outside the classroom with some engaging and practical ideas

### Suitable for

Subject teachers and heads of department hoping to maximise the achievement of gifted and talented students at KS3 and 4.

## Ensuring Challenge in the 'Top Set' English Classroom

*Preparing for success in both key stage 3 and 4*

**Course reference:** 8107ZUH **Price:** £299+VAT **Timings:** 10am - 4pm

This practically based course is designed to support colleagues in teaching the most able students to ensure A\* results whilst aiming for the highest levels of engagement and enjoyment. Delegates will receive many practical ideas which they will be able to apply immediately in their classrooms. The course is led by English practitioners with a proven track record of success with this group of learners.

### Course content

- Engaging the learner through challenge and enquiry
- Improving learning by teaching less
- Using assessment to improve formative learning
- Choosing the right texts and encouraging wider reading
- Challenge, pace and high expectations
- Examples of good practice

### Course dates

We run courses in 11 cities across the country

# Ensuring Challenge in the 'Top Set' Maths Classroom

*Creating outstanding lessons for the more able in maths*

**Course reference:** 8249ZUH   **Price:** £299+VAT   **Timings:** 10am - 4pm

Challenging questions on standard topics or differentiated questions on advanced content - how can we best engage the more able pupils in a maths class or top set? This course will explore practical ways of working which engage all students and meet the needs of more able mathematicians.

## Course content

- Recognise and utilise the way pupils differ in their abilities in different areas of mathematics
- Encourage students to think like mathematicians with activities for perseverance and problem solving
- Enrichment or acceleration - how best to stretch able mathematicians
- Enhance independent learning by enabling students to communicate how they found a solution
- Develop higher order questioning through setting open investigations – "I wonder what would happen if..."

# Ensuring Challenge in the 'Top Set' Science Classroom

*Practical strategies to stretch your highest attaining students*

**Course reference:** 8253ZUH   **Price:** £299+VAT   **Timings:** 10am - 4pm

Recent studies have shown that many able students are not challenged enough in all subjects – and science is no exception. This course will explore a range of approaches to add depth, breadth and pace to your top set science lessons to stretch and challenge even your most able students.

## Course content

- Develop extended speaking and writing about the processes within science, explanations, cause and effect relationships
- Extend thinking about 'events', 'processes' and 'concepts' within science and as part of a process that occurs all around us
- Challenge students with and prepare students for, higher grade style exam questions which require higher order thinking
- Enable students to think like a scientist, to develop information handling skills, to master research and reading skills, to summarise and distil key ideas, and to use appropriate scientific terminology
- Encourage and support independent learning in science

Call: 0800 881 8185 | [www.creativeeducation.co.uk/8253](http://www.creativeeducation.co.uk/8253) | Fax: 020 7190 5853
